JETBOIL

THE END OF THE TRAIL IS JUST THE BEGINNING.

In 2004, Jetboil revolutionized backcountry cooking by creating the original all-in-one stove system. Today we continue to innovate with a range of intuitive, reliable and lightning-quick stove systems. Whether you're boiling water for coffee or cooking up dinner for the crew, we'll satisfy cravings and never leave you hanging. So pack your bags. Chase incredible views. We got dinner.

DEAR JETHEAD...

For the past 20 years, we were so busy in our pursuit of efficiency that we may have lost sight of the most important thing: mealtime. Because the truth is, our purpose isn't hidden between the tech and specs, the buzzwords or the awards. Not even close.

Our purpose is to help you cook amazing meals, in places that make you happy, with friends that make you even happier. It's as simple as that.

So we'll keep doing what we do and making what we make, with your mealtime always in sight.

This is **Mealtime Elevated.**

FAST BOIL SYSTEMS

Gas Feed — Unregulated

Simple and reliable, our unregulated systems harness every ounce of our FluxRing Technology, providing maximum efficiency and rapid boiling for three-season performance. In fact, we specially engineered our industry-leading Flash to boil water in just 100 seconds. Jetboil delivers a surefire launch and the quick boil times make unregulated stoves perfect for heating soups, brewing coffee, or boiling water for pastas and dehydrated meals.

STASH

The Lightest and Most Compact Jetboil Ever. We know your dreams are big and ambitious. Which is why we designed the Stash™ to be lightweight and compact, maximizing your pack space without sacrificing that iconic Jetboil performance. At 7.1 oz or 200 g, the .8L Stash is 40% lighter than the .8L Zip.

BEST FOR

Maximizing pack space without sacrificing performance.

STASH

FEATURES

- Stand-alone Stove with Titanium Burner and .8L FluxRing Cook Pot is the lightest Jetboil system ever made
- FluxRing Technology ensures a rapid 2.5-minute boil time
- Cook Pot with lid and attached pour handle makes for easy handling
- Nesting Design allows for compact and easy take-anywhere-ability
- Fuel stabilizer keeps it all stable and steady
- Storage for 100 g JetPower Fuel Canister makes packing for adventure easy

SPECIFICATIONS

Weight	7.1 oz (200 g)*
Power	4,500 BTU/h (1.52 kW)
Volume	27 fl oz (.8 Liter)
Boil Time	2 minutes 30 seconds
Dimensions	5.1" x 4.4" (130 mm x 112 mm)

*System weight excludes fuel stabilizer.

CRAZY COMPACT.

The Stash folds down into its own .8L cook pot, the lid securely holds a 100 g fuel canister with space to store mini-lighter.

(JetPower Fuel and mini-lighter sold separately)

Feature heavy, packs light...

A complete system that fits in the palm of your hand. Really. Oh, it's also the lightest stove kit ever made, 40% lighter than our next lightest system!

BING

BANG

BOOM THAT'S IT.

FLASH

Boil in seconds so you can fuel up faster. Blistering boil times come standard in our industry-leading Flash. This means enjoying that hot cup o' joe or a hot meal at camp just got that much easier.

BEST FOR

Boiling water for dehydrated meals, coffee, and tea.

FLWLD
(Wild)

FLCM
(Camo)

FLFRC
(Fractile)

FEATURES

- 100 Second Boil Time so you can fuel up faster
- Thermochromatic, color-change heat indicator makes knowing when water is ready easy
- Convenient, reliable push-button igniter for quick & easy starts
- 1L cook pot with insulating cozy allows for hand-held warmth
- FluxRing Technology means greater surface area for minimal boil times and improved fuel efficiencies

SPECIFICATIONS

Weight 13.1 oz (371 g)*
Power 9,000 BTU/h (2.6 kW)
Volume 32 fl oz (1 Liter)
Boil Time 100 sec per 16 oz (.5 Liter)
Dimensions 4.1" x 7.1" (104 mm x 180 mm)
 *System weight excludes fuel stabilizer.

FLASH JAVA KIT

Java in a flash. The Flash Java Kit bundles our efficient Flash cooking system with the stowable Silicone Coffee Press, which stores perfectly inside the cook pot.

FEATURES

- 100 Second Boil Time so you can fuel up faster
- Thermochromatic, color-change heat indicator makes knowing when water is ready easy
- Convenient, reliable push-button igniter for quick & easy starts
- 1L cook pot with insulating cozy allows for hand-held warmth
- FluxRing Technology for the greater surface area, minimal boil times and improved fuel efficiencies
- Included Silicone Coffee Press lets you enjoy your favorite French press coffee wherever you're headed

INCLUDES

- Jetboil Flash
- Silicone Coffee Press

ZIP

Compact and efficient boil. A tried-and-true classic, the Zip was born from our original PCS design and offers a reliable, no-frills option for backpackers. Lightweight and compact, this stove focuses on the backcountry boiling essentials. No more and no less.

BEST FOR

No frills cooking — stowable, efficient, and ultra affordable.

FEATURES

- .8 Liter Cook Pot with insulating cozy allows for hand-held warmth
- FluxRing Technology means greater surface area for minimal boil times and improved fuel efficiencies
- Match ignition

SPECIFICATIONS

Weight 12 oz (340 g)*
Power 4,500 BTU/h (0.9 kW)
Volume 27 fl oz (0.8 Liter)
Boil Time 2 minutes 30 sec. per 16 oz (.5 Liter)
Dimensions 4.1" x 6.5" (104 mm x 165 mm)

*System weight excludes fuel stabilizer.

Backpacker's Pho

By Dally Tram | Photographer, Climber, Backcountry Chef

INTRODUCTION:

This pho inspired recipe is designed for simplicity without compromising on the iconic flavor. Being a Vietnamese-American that is passionate about the outdoors, there is nothing more comforting than cozying up to a meal that defined my childhood. It is a perfect way to combine my culture with my passion.

All ingredients are extremely lightweight and fit into a small sandwich bag. This recipe is so quick, easy, and delicious that any Vietnamese granny would be proud!

INGREDIENTS:

- 1 small bundle of dry flat rice noodles
- 1 Pho Hoa spice packet
- 1 bouillon cube (vegetable, chicken, or beef flavor)
- 5-10 pieces of soy protein
- 1 small piece of rock sugar (roughly the size of a grape or alternatively use 1 tsp of brown sugar)
- 1 tbsp of dehydrated onions
- Optional garnish: green onions and cilantro can be added

DIRECTIONS:

1. Add all ingredients (rice noodles, spice bag, bouillon cube, soy protein, and rock sugar) into a jetboil system.
2. Add 2 cups of water and bring to a boil, once a rolling boil is reached, turn off the flame.
3. The spice packet will inflate in your jetboil, but have no fear, this is normal.
4. Stir ingredients until the bouillon cube and rock sugar are dissolved.
5. Cover with lid for approximately 5 minutes.
6. Once the rice noodles and soy protein are soft, remove and discard the spice packet.
7. Add optional garnish if desired, mix gently and enjoy!

PRECISION COOKING SYSTEMS

Gas Feed — Regulated

No need for fancy restaurants, Jetboil has gourmet on-the-go down. Our regulated systems feature best-in-class simmer control for unmatched versatility and expanded cold-weather capabilities in the backcountry. Advanced regulator valves allow for incremental adjustments to fuel flow, giving you a range of temperature options to cook anything, anywhere.

To back it up, we've included the pot support with all of our gas-regulated Mo's, helping you move beyond the boundaries of boiling. From camping and backpacking to overlanding and road tripping, our regulated systems have forged a new frontier in off-the-grid cooking.

Industry Standard

Minimal Control:
0 to 100 in a quarter turn.

MIGHTYMO

Cooked to perfection, not burnt beyond recognition. Pack it up, pack it in. This ridiculously versatile and compact stove weighs in at a meager 3.3 oz. But lucky for you, it still packs enough punch to quickly reach a rolling boil, and the four-turn regulator valve gives it a soft enough touch for sautéing greens or simmering sauces.

BEST FOR

Versatile trail cooking, with minimal weight and pack size.

FEATURES

- Unbeatable simmer control with adjustable flame brings precise cooking control at your fingertips
- Regulated pressure for consistent performance down to 20°F (-6°C) for reliable use in any season
- Convenient, reliable push-button igniter for quick and easy starts
- Improved efficiencies with compatible Jetboil accessories adds variety to cooking abilities

SPECIFICATIONS

Weight	3.3 oz (95 g)*
Power	10,000 BTU/h (3 kW)
Boil Time	3 minutes per 1 liter in FluxRing Cook Pot
Dimensions	4.1" x 3.75" (104 mm x 95.3 mm)

*System weight excludes fuel stabilizer.

Happy together...

MightyMo works together with Summit Skillet and 1.5L Ceramic FluxRing Cook Pot, without the need for the Pot Support. JetPower Fuel, Summit Skillet and 1.5L Ceramic FluxRing Cook Pot sold separately, see pages 35 - 39.

MICROMO

Comes small, cooks huge. Our lightest self-contained regulated cooking system doesn't compromise performance or versatility. It might be light and stowable in your pack, but this stove can do big things with our proprietary regulator technology. Boil fast. Simmer slow. It's up to you.

BEST FOR

Fully contained personal regulated cooking system without the extra weight.

Pot Support Included

MCMTM
(Tamale)

MCMCB
(Carbon)

FEATURES

- Unbeatable simmer control with adjustable flame brings precise cooking control at your fingertips
- Regulated pressure for consistent performance down to 20°F (-6°C) for reliable use in any season
- Convenient, reliable push-button igniter for quick and easy starts
- .8 Liter Cook Pot with insulating cozy allows for hand-held warmth
- FluxRing Technology means greater surface area for minimal boil times and improved fuel efficiencies

*System weight excludes fuel stabilizer.

Root Vegetable Hash

By Jon Moore | Fly Fisher, Backpacker, Photographer

INGREDIENTS:

- 1 tablespoon butter powder
- 1 small russet potato, shredded (or ½ cup dried)
- small carrot, peeled and diced
- ½ onion, diced
- ½ teaspoon salt, divided
- ¼ teaspoon black pepper
- 1¼ cup water (or 10oz)
- ⅓ cup dehydrated bacon
- 4 tbsp dried egg powder
- 1 teaspoon dried chives
- 5 tbsp water

BEFORE YOU GO:

1. To prep the recipe prior to your trip, boil carrot and potato. Once cooked, let cool completely and peel. Cut the carrot into ¼ inch cubes and coarsely shred your potato. Place into a dehydrator at 135F for 6-12 hours.
2. Place chopped onions in a dehydrator at 135F for 6-12 hours.
3. Once the root vegetables are done, place them into a plastic bag with dehydrated onions, powdered butter, ¼ teaspoon salt, black pepper.
4. In a second plastic bag, measure out dried ¼ teaspoon salt, dried egg powder, and dried chives.

ON THE TRAIL:

5. Bring 10oz of water to a boil in your MiniMo pot.
6. Add root vegetable ingredients, stir, cover, and reduce to simmer for about 10 minutes.
7. Once the vegetables are tender, return to medium heat, stirring often, until all of the liquid has evaporated and vegetables have begun to brown.
8. Once the vegetables are soft and cooked through, remove from the pot and into the cup accessory.
9. Wipe out the pot with a towel. Return the pot to heat with the egg mixture and 5 tbsp water. Scramble eggs until well done, then plate with vegetables into the bowl.

SUMO

Ultimate cooking capacity. Sometimes JetHeads have a few JetFriends. That's why we made the SUMO. It packs the same regulated gas feed in a higher capacity cook pot to fuel the whole squad with plenty of meal options. Plus, the optional Grande Coffee Press, Summit Skillet and 1.5L Ceramic FluxRing Cook Pot means you won't have any shortage of meal options on the trail.

BEST FOR

Group cooking
without sacrificing
efficiency.

*System weight excludes fuel stabilizer.

BASECAMP SYSTEMS

Propane Feed — Regulated

Bacon and eggs? Pasta and marinara? That's the chef's choice. Our basecamp systems pack the same regulated FluxRing technology into larger cook tops, giving you additional camp cooking versatility. When the trips get longer or the crew grows larger, the JetLink technology gives you the option to grow your basecamp system into a full-fledged backcountry kitchen. So whether it's car camping, van life, or alpine expeditions, keep the team well fed with the industry's most rugged and functional camp stoves.

GENESIS BASECAMP SYSTEM

Massively compact cooking system. The Genesis Basecamp System is the ultimate all-in-one backcountry cooking system, stowing neatly into itself and then fitting snugly into the durable travel bag. In one fell swoop you can pick up the regulated Genesis Stove, 5-liter FluxPot, and Fry Pan—everything you need to set a new benchmark for basecamp cooking.

BEST FOR

Maximum cooking area and versatility when you're off the grid.

GNSY
(Genesis System)

FEATURES

- Fast and efficient folding 2-burner stove, perfect for solo meals or large group cooking
- 5L FluxRing Cook Pot for greater surface area and improved fuel efficiencies
- 10" ceramic -coated fry pan with easy non-stick cooking makes cleaning a breeze
- JetLink™ Accessory Hose expands system to allow for great cooking abilities
- System includes Genesis Stove, 10" Fry Pan, 5L FluxRing Cook Pot, Carry Bag, Windscreen and Fuel Regulator

SPECIFICATIONS

Weight	9.1 lbs (4.1 kg)*
Power	2 - 10,000 BTU/h (3 kW)
Boil Time	3 minutes 15 sec. per 32 oz (1 Liter in 5L FluxPot)
Dimensions	10.3" x 7.2" (262 mm x 183 mm)
Fuel	Compatible with standard 16.4 oz propane bottle

*System weight excludes regulator, windscreen and carry bag.

The Ultimate Basecamp Cooking System
Everything You Need in One System.

GENESIS_{STOVE}

Modular dual-burner stove. Can you imagine the meals you'd make if you had the convenience of kitchen cooking in the backcountry? Well, that dream is now a reality with the Genesis, an ultra compact dual-burner stove that folds in half for easy travel. It's designed specifically for Jetboil's versatile line of cookware, and like our other Basecamp Systems, it includes the JetLink Port for daisy chaining other Jetboil stoves.

BEST FOR

Adding a compact cook top to your camp kitchen.

GNST
(Genesis Stove)

FEATURES

- Fast and efficient folding 2-burner stove, perfect for solo meals or large group cooking
- JetLink™ Accessory Hose expands system to allow for great cooking abilities
- Unbeatable simmer control with adjustable flame brings precise cooking control at your fingertips
- Innovative design makes for easy clean-up
- System carrying bag with pocket for regulator fuel connection

SPECIFICATIONS

Weight	6.2 lbs (2.8 kg)*
Power	2 - 10,000 BTU/h (3 kW)
Boil Time	3 minutes 15 sec. per 32 oz (1 Liter in 5L FluxRing Cook Pot)
Dimensions	9.8" x 4.6" (249 mm x 117 mm)
Fuel	Compatible with standard 16.4 oz propane bottle

*Stove weight excludes regulator, windscreen and carry bag.

HALFGEN

Grow your own. Retrofit your backcountry repertoire with the world's first modular, expandable basecamp cooking system. Use it as a standalone stove, or couple it to other JetLink compatible stoves via the JetLink Port. A beastly 10,000 BTUs makes boiling water a jif, and incomparable simmer control gives you the flexibility to boil fast or simmer slow.

BEST FOR

Expanding your basecamp cooking possibilities.

HALFGEN
(HalfGen System)

FEATURES

- Modular system with JetLink™ output to expand system and expand cooking abilities
- 9" ceramic coated fry pan for easy, non-stick cooking
- Unbeatable simmer control with adjustable flame brings precise cooking control at your fingertips
- System includes Stove, 9" FryPan, Carry Bag, Windscreen and Fuel Regulator

SPECIFICATIONS

Weight	3.5 lbs (1.6 kg)*
Power	10,000 BTU/h (3 kW)
Boil Time	3 minutes 15 sec. per 1 liter in 5L FluxRing Cook Pot
Dimensions	9.4" x 3.9" (239 mm x 99 mm)
Fuel	Compatible with standard 16.4 oz propane bottle

*System weight excludes regulator, windscreen and carry bag.

Not My Dad's Burrito Bowl

By Gritty Gourmet | Backcountry Chef, Climber, Adventurer

INGREDIENTS:

- 1 package Right Rice Spanish rice
- 1/2 cup Dehydrated refried black beans
- 1/4 cup dehydrated red bell peppers
- 1/4 cup dehydrated crimini mushrooms
- 1/4 cup dehydrated corn
- 2 tablespoons dehydrated onions
- 1/2 teaspoon paprika
- 1/4 teaspoon cumin
- 1/8 teaspoon chipotle powder
- 1/4 teaspoon chili powder
- 1/4 teaspoon salt
- 1/8 teaspoon ground black pepper
- 1 teaspoon oil (optional)
- 3 1/2 cups water

BEFORE YOU GO:

1. Place dehydrated bell peppers, mushrooms, corn, and onions in packable container.
2. Mix all spices and store in a small, backpacking-ready container.

ON THE TRAIL:

3. Unpack and assemble Jetboil MightyMo and Jetboil MiniMo.
4. Bring 2 1/2 cups of water to a boil in MightyMo.
5. Add 3/4 cup of water to the dehydrated vegetable mix, stir, tightly seal, and then set aside for 10 minutes.
6. Place refried beans in MiniMo and mix in 1/2 cup of boiled water. Stir to combine, cover, and let sit for 7 minutes.
7. Add Right Rice to remaining water, stir well. Cover and let sit for 12 minutes.
8. Once vegetables are fully rehydrated, place them in the Jetboil Summit Skillet and bring them to medium-high heat. Sprinkle on the spice mixture to taste and cook until mushrooms are slightly browned.
9. Finally, create your burrito bowl: start with a base of Right Rice, then add a scoop of refried beans. Top with a helping of vegetables, add a slice of avocado (if you're feeling fancy), and finish with a last sprinkle of the spice mix.

This recipe was designed to be shared, and it makes enough for 3-4 burrito bowls.

SUMMIT SKILLET

Versatility built-in. Our non-stick skillet packs the performance of your kitchen pans into a trail-ready solution. Not only does it improve your backcountry cooking versatility, the turner nests into the handle for compact and lightweight travel.

SKLT
